Hi everybody! We are the Antioch kitties. What that means is that we are all wonderful kitties at the Antioch shelter. You see, the shelter is overwhelmed right now and they have to get us kitties out so that nothing bad happens (and we all know what that means, right?). If you're not in the area, that's okay, transport is available and, again, even if you can just foster, that will help buy extra time for some of the other kitties. We are all fixed and up to date on our shots. If you'd like more information on each of us separately, here you go: Luna is a five-year-old, black and white, long-haired female. She is a very big kitty--about 15 pounds—who would love to be your lap cat.

Diva is a brown-and-white tabby with adorable white peds on her feet. She's about nine years old, which really is just middle-aged in kitty years. Diva is a champion head-butter and purrs and makes biscuits when you give her attention. She is a doll and would love to be the companion to a caring person who would give her the love she deserves

Luciano is a handsome, long-haired black-and-white cat around two years of age. He loves to be petted and loves attention. He is easy going and will adjust easily to a new home.

Chloe is a five-year-old tortie. She loves to roam around and would love to be out of her cage. She is a very sweet kitty who just wants to be loved.

Holly is a two-year-old, medium-haired, black female. She LOVES being held and is a total sweetheart. She is the calmest kitty around and would be great with kids.
