My name is Barnaby. You all are probably too young to remember but there was a TV show called "Barnaby Jones" about an older guy who runs a detective agency with his daughter. Well, I'm in my senior years as well - 15 years of age. Not only that but I'm suffering from a ruptured ligament on one of my legs that had not been diagnosed before - essentially I've been in a lot of pain and limping around for five years. But despite my pain, I'm a nice friendly boy who really enjoys having my head petted. And I recently found a place at the BrightHaven foster home where they are going to fix my leg, even though the surgery will cost around \$1200. It is going to make all the difference to my life but it will deplete their medical fund quite a bit. If you would like to help me out, you can donate to BrightHaven at <http://ssl.sonic.net/gailpope/donations/> (donations are tax deductible). OR, if you would like to adopt me once my leg is fixed up, you can contact Susan at 415-359-4113 or by email at crc_rescue@yahoo.com
