My name is Smokey and, before you even think it, no, I'm not a cop chasing after a bandit (for those of you old enough to remember that movie), nor am I a bear. What I am is a gorgeous senior kitty whose person died recently, leaving me without a home. I'm part Maine Coon and all love bug. I purr and purr and love to be petted and combed. If you are watching TV or reading, I will want to nap on your lap or right next to you. While I am a senior citizen, at 17 years of age, my health is superb -- the vet said it was the best senior blood work he'd ever seen. I have been declawed, so I will need to be an indoor cat. I'm in a foster home in Santa Rosa, but I would really like a forever home. I get along with other cats, but I'm a one-person kind of guy and would prefer a home where I could be a true companion to my person. Will it be with you?

For more information, please contact Joelle Yuna on
